AE Expeditions Launches New Antarctica 2024/25 Program

AE Expeditions to explore the Chilean Fjords and follow in Shackleton's Footsteps in 2024/25

SYDNEY, AUSTRALIA (April 13, 2023) Award-winning, Australian-owned expedition company [AE Expeditions](#), today launched its 2024-2025 Antarctic program packed with 25 voyages from 9 to 23 days duration, visiting the Antarctic Peninsula, Falkland Islands, South Georgia and, new this season, the Chilean Fjords.

Also new is the [In Shackleton's Footsteps](#), a 20-day epic adventure that retraces the historic voyage of the *Endurance*, venturing into the Weddell Sea to Elephant Island, the desolate outpost where Shackleton and his men finally made landfall after 497 days at sea. The voyage continues across the Scotia Sea to South Georgia, where Shackleton's voyage reached its climactic conclusion. It departs from Ushuaia, Argentina on March 16, 2025.

A first for AE Expeditions is visiting the Chilean Fjords, a stunning maze of waterways filled with bird and sea life surrounded by majestic snow-capped mountains. The Fjords are featured in two itineraries: a 14-day fly/sail [Antarctic Explorer](#) voyage departing March 01 and a 13-day [Spirit of Antarctica](#) expedition departing March 13, 2025.

Whether a novice or skilled, photography enthusiasts will love our immersive 13-day *Spirit of Antarctica* dedicated photographic voyage departing November 12, 2024. Travellers will learn the secrets, tips and tricks through informative lectures and while off-ship exploring from our professional photographers on board.

"I am beyond thrilled to release our most comprehensive Antarctica program for 24/25. The season is packed full of adventure and exploration with a variety of ways for travellers to truly explore Antarctica," said Hayley Peacock-Gower, Chief Marketing Officer of AE Expeditions.

"We have pioneered purpose-driven exploration for more than 32 years and this season combines a unique mix of itineraries – returning favourites, new itineraries and a collection of

special themed expeditions. We aim to open travellers up to exploration and push the boundaries of adventure while deepening connections to the natural world through our off-ship multiple daily excursions, our extensive range of activities and participative Citizen Science projects, all under the guidance of our highly acclaimed and experienced Expedition Team," continued Peacock-Gower.

Launching along with the new Antarctic program will be an exclusive early bird offer* with savings of up to 25 per cent available until sold out so get in quick to secure the voyage and desired stateroom.

For travellers short on time and wishing to capitalise their time on the Antarctic Peninsula or wishing to limit their exposure to the infamous Drake Passage, AE Expeditions is offering eight fly/sail or sail/fly combinations during the height of the Antarctic summer, January-February 2025.
